

Trimming the Miniature Schnauzer

Trim hair from inside corner of eye to separate brow from beard.

Blend hair from below back corner of eye into beard in an unbroken line

Clipper to moles on cheeks and underjaw with #30.

Excess beard: rake out dead hair, shape and shorten with thinning shears.

Space between eyebrows equals one thumb's width. Blend into skull with scissors.

Eye-brow length about 1/2 way to tip of nose.

Trim excess lashes out from under eyebrow - carefully!

Tidy shaggy hairs on upper lip.
